Subject: PEO'S AND SBE479

Dear Fellow HR Directors, Directors of Operations and CFO's,

This is a brief recommendation for SBE479.org as an organization and their team.

Prevalent Inc., is a start-up tech company in New Jersey with approximately 100 employees. We were currently working with a PEO but wanted to see what other options were out there from other PEO's. We were not satisfied with the admin pricing and medical pricing of our current PEO.

SBE479.org did exactly what they promised.

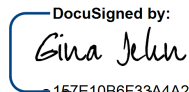

Even though I understand PEO's – I didn't want to spend the time to prepare extensive excel spreadsheets comparing each PEO's offerings. Spending hours comparing each's features, services and prices was how I wanted to spend my time. I didn't want to talk to a bunch of PEO sales people, each with their own agenda and not my best interest at heart.

Working with the SBE479 team, made the process painless and efficient. I was able to give SBE479 one set of information and let them do the heavy lifting! I dealt with one group of caring, attentive, straightforward professionals, and got the analysis and pricing I wanted quickly.

In the end, when we narrowed it down - SBE479 made sure we met with both the service team and management to make sure that our goals, understandings and commitments (on both sides) were clear.

I'm a pretty demanding person and SBE479 delivered!

Very Sincerely,

Gina Jehn 
Sr. Director of Operations and HR
